MONDAY, MAY 28, 1883.

THIS DAY'S DOINGS. Novelty Show—Armless Woman— Afternoon and Evening.

Harmony Lodge, I.O.O.F.7:30 Algaroba Lodge, at 7:30.

THE BOSTON EXHIBITION.

We have been favored by the Secretary of the Hawaiian Commission with circulars, &c., relative to what is to be done at the proposed exhibition. He will visit Molokai and afterwards the other Islands to gather such exhibits as will be suitable. It is hoped that specimens for our Museum will be obtained by exchange. 'The Planters' Labor and Supply Co. have been asked to co-operate. As all exhibits must be in position not later than Aug. 15th, some dispatch must be attained if the Hawaiian exhibit is to prove successful. Collections of herbs, roots, barks, woods, ferns, fibres, pulu, fruits, leather, coffee, rice, sugar, salt, tobacco, jewelry, photographs, maps, paintings, agricultural machinery, newspapers, books, reports, statistics, etc., with, if possible, detailed accounts of the exhibits and showing the various stages, if manufactured, are requested. Any further information can be obtained by addressing the Secretary of the Hawaiian Commission at the Foreign Office.

POLICE COURT. CRIMINAL CALENDAR.

Saturday, May 26-M. Kamanewa and C. Gannon, remanded from 25th, M. Kamanewa, fined \$4 and \$4.10 costs, C. Gannon, reprimanded and discharged. Paha, driving a horse in dray faster than a walk, fined \$5 and \$1 costs. Kikana, polygamy, by marrying a woman named Keamalu, he at the time having a wife living named Puaalua. No defence was offered and after hearing evidence defendant was committed for trial to July term of the Supreme Court.

LOCAL & GENERAL ITEMS.

On Saturday S. K. Kasi was discharged from custody.

S. M. CARTER &Co's telephone number is changed to 187.

A Portuguese Boy, aged 6 years, died on board the Emma, on her wav from Waianae to Honolulu, on Friday.

WE understand that the Captain of the Excelsior offered to take the 140 Chinese for Portland now on the Madras for \$20 a head and \$100 a day demurrage for every day over 16 days quarantine over there. No arrangement could however be come to.

WE kear that recruits for the Mounted Police of Honolulu, are to be enrolled to-day. Seeing that it is nearly a year since the Legislature authorized the creation of this extraordinary force, and that up to the 31st. March, \$10,000 had been paid out of the Treasury on its account. It is time something was done.

With this issue we give another large supplement which will be found, we hope, as full of interest as usual. Flanour contributes another instalment o the Latest London Gossip, A ramble through a Sugar Plantation in Piji, an American steamship of the future, and the usual miscellany make up the remainder of the contents.

Last Year the inhabitants and gardens of Honolulu suffered from a scarcity of water. We then recommended the employment of a skilful engineer to prepare plan for water conservation so as to ob tain a supply that would be sufficient for the city and its future growth. The wet season came on, however, and as every thing was all right, fothing was done. Now we are again threatened with want of water.

THE Madras situation has at last esoived itself to this. The vessel is in quarantine, but the Board of Health will not permit the landing of any of its passengers or freight, unless bonds are given guaranteeing the expenses. The Captain won't give any bonds on the ship, and the Chinese merchants on shore won't give bonds for more than wo-thirds of the expenses.

THE concocter and gatherer of local illa podrida on the Press differs from its Medical Editor on the subjects of rubbish-burning and the best water for drinking purposes in Honolulu. A least so he says. Most sensible people having any scientific knowledge on those subjects will, we think, coincide with the Medical Editor's views.

Wny doesn't the Minister of the Interior authorize the purchase of a Pulsometer pump, so as to utilize the water in the Artesian well near the Makiki reservoir by pumping it into the reservoir and thus enabling it to be distributed over the town by the water-pipes. The matter has been before him for some

On Friday during the noon recess at he Royal School one of the pupils named Joshua a boy of 12 years of age vas badly cut on the right thigh by a broken glass bottle on which he fell while playing a game of foot ball. He was taken to the Hospital and the wound sewed up by Dr. Trousseau and was then sent home.

MANY men have made fortunes in this country but how few have remained here to spend them in improving the country. It is a great pity that a more enlightened public spirit has not been found, but it seems that the country is more fortunate at the present day than at any time before. If you seek for evidence of this look around and see the new buildings, new industries, improved machinery, etc., on every hand.

DURING the last few days city and suburban residents have had an opportunity of seeing the first Hansom Cab ever driven in this city. It is the property of Col. Geo. Macfarlane who imported it from England. Its convenience for the general character of the passenger traffic here (one or two persons is each at a time) that its general adoption is only a matter of

RESIDENTS in the upper part of Nuuanu Avenue, are complaining of want of vater. Day after day, they are unable o get any owing to the fact that so many water rights have been sold by the Government, that there is not enough to supply them all. They have, we understand, petitioned the Minister of the Interior, but as yet inothing has been done Most, if not all, of these residents gave up their water rights to the Government on condition of being supplied by the Government, and now they are without

"WE are informed that the publisher of one of our weekly contemporaries has addressed a letter to the Premier". etc, etc., P. C. A., May 25th. We do net know who the aforesaid publisher is but we certainly think the whole of that article is founded on a breach of after her brothers, but she never official and gentlemanly etiquette as racticed in any other country in th world. Just fancy any one writing to he Premier on business of his own and then hearing about it from a third party--the case is precisely similar. It shows too, very clearly, the value of the ssertions so repeatedly made, that the Advertiser is not a Government mouth piece and that the Premier has nothing to do with editing it. [Since writing the above (Friday) the Saturday Press has appeared, from which we gather that the publisher referred to by the Advertiser is Mr. T. G. Thrum. This only makes the matter worse for the Advertiser, for if they had only waited a day or two they could have reasonably criticized the setton instead of criticized the action instead of trying to prejudice the public mind.]

FAN LOST.

LEFT in the Ladies' Dressing Room at the Music Hall on the night of the British Benevolent Society's Ball, a Red and Gold Embroidered Fan, with lace bordered handkerchief attached. Finder will be suitably rewarded on restoring same to F. M. Swanzy, at Theo. H. Davies & Co's.

ON Saturday last, a CANARY, green and yellow wings and green top-knot. Finder will please leave same at this office and receive reward. 409 tw

A and Plowmen. Apply to 408 1w WM. G. IRWIN & Co. A FURNISHED COTTAGE, none the Chinese Church. Enquire at No. 85 Fort street.

SITUATED at Paswa, on the Waikiki to Mr. E. W. Holdsworth, at Theo. H. Davies & Co.'s office.

DEATH

Her Highness Princess

After 10 a.m. on last Wednesday,

the Likelike arrived at Kailua, Kona Hawaii, having been specially engaged to convey Her Majesty the Dowager Queen Emma, the Hon. Mrs. C. R. Bishop, and Dr. Brodie, to visit Her Highness, who had been reported as ill. On arriving, they found the re-port was too true, Her Highness having suffered for the past eleven days, and being still suffering from a very high intermittent fever. His Majesty visited her, but, as the physician had hopes of recovery, went on with his trip to Hilo. Her High-ness was still conscious and was very glad to see her relatives. She retained consciousness till about 4:30 p.m., when she sank into sleep, from which she never woke till her death, at 9 in the morning. Her end was very peaceful and quiet. She had been ill for 11 days with the fever, but only during the last few days had she thought it of any con sequence and had then sent Judge Hoapili for her cousins, Queen Emma and Mrs. Bishop. Previous to ma and Mrs. Bishop. Previous to that she had forbidden writing to them, and if that injunction had not een disregarded they would never, in all probability, have seen her alive again. During the past two years she had been suffering from heart disease, and often her pulse had apparently ceased, and she had been hought to be lifeless, but recovered. In this case it is believed that the fever weakened her so that she succumbed to the old trouble. She had had no medical attendance previous to the arrival of Dr. Brodie, having refused to call in any, though a doctor was within 10 miles, and the Roman Catholic priest in charge of the district had offered to give her medi-

cine, but she refused till Wed-nesday, when she took some pills from him, but it was too late. The fever was produced by taking cold on Sunday, May 18th, when she went out for a drive and after-

wards took a sea bath. The deceased Princess was born on the 9th February, 1826, and was herefore in her 58th year. She was the daughter of the great chiefess Pauahi and Gov. Kekuanaoa, sister to the late Kamehamehas IV. and V., fand first cousin to the Hon. Mrs. C. R. Bishop. She was also a cousin of Her Majesty the Dowager Queen Emma. She was possessed of wonderful energy and force of character resembling in this respect her father Gov. Kekuanaoa, but having them in a more marked de-gree. Her courage and industry are well known; in fact, if it could be possible she had too much of the atter quality. Her death will cause one of the last links of the old traditions and memories of the past to the Hawaiian race to be snapped. It was at one time thought that she would have succeeded to the Throne was anxious for such high honors. Her death will be universally regretted and by none more than those who have known her intimately. The coffin will be laid in state a the house, on Emma street. The funeral will take place on June 15th.

(The above was written yesterday morning and issued as an Extra before 6 o'clock.)

The following were present at the time of her decease: Her Majesty Queen Dowager Emma Kaleleona-lani, Hon. Mrs. Pauahi Bishop, (her only relatives), Mrs. A. Rosa, Miss L. Peabody, Miss Stillman, Mrs. L. Kapoli, A. Pelekaluhi and others. In receipt of the news of the death of Her Highness, Capt. King imme-diately proceeded to Kailua, from Kawaihae, to convey the body of the deceased to Honolulu. At 1:15 a. m. on Saturday, May 26th, the stea mer Likelike arrived at Kailua, and Purser Brash, accompanied by Messrs Dudoit, Kawainui, and the mate of the steamer, went ashore and assisted in getting the body of the deceased on board. After a delay of only one hour and a half the steamer left Kailua for Kawaihae, on her return for Honolulu. This speedy departure was owing to the efforts of Her Majesty Queen Dowager Emma, Hon. Mrs. Paughi Bishop, and Dr. J. Brodie, On board the steamer the body was placed in charge of Marshal Parke.

Our special thanks are one to J. U. Kawainui, Ksq., editor of the Hawaii Pac Aina, who kindly pro-cured particulars for us.

The U.S. flagship Hartford is at Hilo and will be due here to-morrow.

Yesterday at noon, a man named Jas. Hunt dropped dead in Hart's Old Cor-ner Restauran. A half-white boy named Wright at Kohala, is said to have the small pox.

DILLINGHAM & CO.'S

W. MACFARLANE &

WE DESIRE TO CALL THE ATTENTION OF THE PUBLIC to the arrival of our new invoices Just received per Steamer Abergeldie from London, comprising the largest and most varied assortment of Goods and Merchandise ever imported to this Kingdom and which are now on Exhibition and for sale at our Sales Rooms, Beaver Block.

Sales Rooms, Beaver Block.

In offering these goods for sale we take great pleasure in informing the Ladies of Honolulu and of the other Islands that we have anticipated every want in their line, and are now prepared to show them the choicest line of Goods ever offered for sale here, having been carefully selected by a member of our Firm from the very latest stocks of the leading House of London and Paris, with reference to the particular necessities and requirements of this community.

Many of the articles referred to are of the very latest and most unique designs, and as the venture is mainly experimental to test the wants of our ladies, they may be regarded as merely sample lots. Ladies will do well therefore to call early, as the goods will be disposed of as soon as pssible, to make room for our extensive stock of goods for the city and country trade.

We wish to call particular attention to the following Grand Exhibition pieces from the world-famed Manufactory of MESSIS. R. P. DANIELL & CO., OF LONDON, the surpassing beautiful examples of their workmanship, having attracted the notice and admiration of Napoleon III., who granted the Senior Daniell free and exclusive permission to reproduce from the old models at the Government works at Sevres. It is not surprising therefore to note that this now world-renowned house have taken every first prize medal at all of the great International Exhibitions on the Continent for the past twenty years. tions on the Continent for the past twenty years.

The piece de resistance of this art collection is a SUPERB PROMETHEUS VASE

The piece de resistance of this art collection is a SUPERB PROMETHEUS VASE and cover of turquoise blue ground, and colored majolica, with emblematic figures at sides, and the chained Prometheus and vulture, most elaborately and beautifully wrought on the cover. The above is the identical piece that secured the first prize at the great PARIS INTERNATIONAL EXHIBITION OF 1868. Some idea of the value of this work of art can be formed from the fact that it underwent fifteen separate triple before agricular at its present perfected state of form and color. The

of this work of art can be formed from the fact that it underwent fifteen separate trials before arriving at its present perfected state of form and color. The unusually large size of the piece rendering it apt to split in two, on account of the severity of the heat to which it is exposed in the firing. The color combinations are strikingly effective, and the delicate handling of tints is a marvel of artistic skill.

There will also be on exhibition a PAIR OF MAGNIFICENT VASES reproduced from old Sevres models, granted to Mr. Daniell by His Imperial Majesty Napoleon III. They are of rose aventurine tint, surmounted with exotic birds of most brilliant and beautiful plumage, and elaborately and richly finished in gold ornamentation, with elegantly carved ebony pedestals with marble tops and crimson plinths. Also a most exquisite TABLE CENTER PIECE in turquoise and gold, with parian supporters and shell plateaux for flowers and fruits, very richly ornamented in gold. This piece is from old Sevres' examples for great exposition specimens, and has taken the first prizes at all competitive European Exhibitions since 1872.

The above mentioned pieces will remain on exhibition at our Show Rooms for-two or three weeks, after which they will be sent to San Francisco and New York for exhibition and sale.

In addition to the foregoing there are some smaller pieces in the same line which are deserving of especial mention, notably A LIFE SIZE COCKATOO with wings spread, flower holders at sides and chastely finished in ornamentation.

This is a most surprisingly effective piece, and the coloring is so faithful to Nature as to be realistic in the extreme. Also

ONE JARDINIERE with satyr handles most exquisitely decorated in mottled colors and gold aventurine with two chonized tripods, with pedestals and crimson Utrecht velvet stands for same. Also

ONE ROUND JARDINIERE on four feet blue ground and sliver embossments after Egyptian patterns

ONE LARGE JABDINIERE in Persian turquoise blue, with elephant handles and square pedestal for same with dark green ground
ONE ESQUIMAUX UMBRELLA STAND in majolica with life-like representation of a seal in perfectly natural colors. This is a most artistic piece of workmanship.
ONE TALL PEDESTAL of mazarine ground with most graceful and naturally colored leafage. A very handsome parlor ornament. Also
ONE TALL PEDESTAL in turquoise, with graceful and nicely colored festoons of fruits and flowers intertwined
TWO RIBBON PLOWER VASES of most unique design with presents graceful and

TWO RIBBON FLOWER VASES of most unique design with mazarine ground and

gold Japanese sprays
OARDEN SEATS Beautifully decorated with naturally colored chrysanthemums and pink tied ribbons. Also ditto on celadon ground. Are very handsome garden

ornaments

FLOWER POTS AND STANDS Of rare and beautiful design, with mazarine ground and colored clematis with birds beautifully embossed. All of the above mentioned are very difficult pieces to produce on account of the various combinations of color required, necessitating separate firings for each color produced. Some of the pieces have split in the kiln as many as eight times, so that when a piece is brought safely through the firing process, the value is quite apparent. We wish again to call especial attention to

safely through the firing process, the value is quite apparent. We wish again to call especial attention to

TWO SUFERB ETCHINGS On porcelain placques, by well-known European Artists. The one is a Marine 1690 by Ballin, in Sepla, and one of the best examples of this most delicate and wonderful art, which is now undergoing such a spirited revival in the United States and Europe. The drawing in this picture is exceptionally good, and the Chiar-oscuro effect very cleverly handled.

The other represents a Coast Scene by Mortino, which is particularly noticeable for its free and unconventional treatment, and the delicate distribution of time. These are the first Etchings on porcelain ever exhibited in Honolulu, and are well worthy of a visit. The following choice articles of

BRIC A BRAC In Majolica and Glassware will offord some idea of the variety in this line viz: Flower-pots and Stands of all description and designs in all colors, and beautifully embossed with fruits and flowers; Glass Center Flower Yases in all colors with plateaux, Parias and Bisque figures; Cabinet Ornaments; Jewel Boxes; Perhane Cases; Venetian Ware is geautiful designs; Colored Majolica Brackets of varied patternns; andarin Tea Pots in green and gold; the choicest designs; Martin and Cards and Slates; Flower Baskets, etc., etc.

CHINA & G. ASSWAIR A large line of the choicest articles of China and Glassware of the most varied descriptions as follows; Becalifist, Dinner and Tea Selfs of all patterns and designs, including a few dessert and tea services of the finest quality and most exquisite decoration.

ONE STAG CENTER PIECE of most elaborate design and finish—a magnificent table ornament. Elegant Tollette Services embossed with beantiful hand-paint, ings of birds & flowers; Salad Bowls, Champagne Bottle Holders; Champagne Cups; elegant Crystal Candelabras with prismaile pendants and silver mountings, Cabinet Dessert Services; Planch Bowls, Claret & Lemonade Jugs; Soup Turcens, Bottle Stands; Glass Shades, and an endless variety of the fin
